# What is a Good Coach

- Teaches the players the skills they need to succeed.
- Shows fairness to all players.
- Lets the players play the game.
- Acts as a positive role model.

# Teaching Good Sporting Behaviours

Here are ten things you can do to show your player (and other parents) what being "a good sport" means:

## 1. Understand what we are:

***"Recreational Soccer Emphasizing Good Sporting Behaviours, Skill Development and Fun"***

- We are **NOT** a competitive league with player evaluations, player cuts, substitutes riding the bench, and an emphasis on winning.
- We try to achieve a balance between competition and learning skills and attitudes, and having fun.

2. This is an Equal Play League. Players **MUST** be provided equal opportunities to play regardless of ability or gender.

3. Cheer for all the players, even those on the other team. What a surprising difference it can make on the sidelines and in the stands when coaches and parents make an effort to applaud a good effort or a fine play - no matter whom makes it.

4. Talk to players and coaches of the other team. They are not the enemy.

5. Thank the officials - Find a few moments to compliment the officials for their hard work after a game. Remember your sons and daughters are the officials and just like you they can make mistakes.

6. Keep soccer in its proper perspective: Soccer should not be larger than life for you or your players. If your player's performance produces strong emotions in you, suppress them.

► **Remember it is only a game.**

7. Have fun: That is what the player's are trying to do!

8. Be a supportive coach: resist the urge to constantly critique. Players dread their coach going over their performance in detail, pointing out all their mistakes and never acknowledging growth, skill improvement or good performance. Be careful what you say to a player in front of their teammates. Help your players build strong self-esteem.

**Always this**

**Never this**

9. If you are winning don't run up the score. Don't allow players to taunt or embarrass a weaker opponent.

➤ **Be humble in victory.**

10. The final score of the game is irrelevant - what is important is whether the players played well and had fun. If you are losing try to recognize the positive play of your players and the other team.

➤ **Be gracious in defeat.**

# Ideas to keep the score down

If a team is out-matched don't humiliate or discourage them by keeping your best players out to score goals.

- ▶ Put out your second line
- ▶ Put your best scorer on defence or in net
- ▶ Tell your players not to score or to pass six times before they shoot
- ▶ Tell players they can only shoot with the weaker foot
- ▶ Tell players they can only shoot from outside the penalty area
- ▶ Own goalkeeper must touch the ball before an attack can be initiated
- ▶ Play with a reduced number of players.

If you get up by 4 or 5 goals, pull back, let the other team attack, and have your team practice their passing and defending skills.

# The Ultimate Goal!

**This is more important...**

**.... than this !!!**

# What Should I expect

- ▶ Each youth is different, play them the same.
- ▶ Each youth comes with a different reason to play, play them the same.
- ▶ 75% of kids drop out by age 15, you can change that.
